

Government Contracting Affects Your Entire Company

For each stage of the product cycle, you need different types of legal guidance and support:

At the same time, you need holistic advice that covers the big picture.

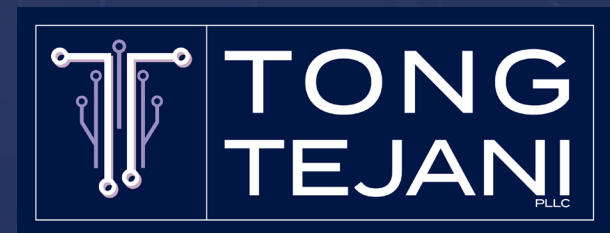

DATA GOVERNANCE & CYBER HYGIENE

ETHICS & COMPLIANCE

Tong Tejani is different because we focus on the entire product cycle.

Typically in the legal field, separate sets attorneys are assigned to each stage of the process (one group for product, one for sales, one for compliance, one for data). These groups are usually siloed from each other, so unintended overlaps and gaps can leave you with complications. What's more, many firms only step in at the contracting stage, which is too late to prevent problems.

Tong Tejani understands the complete product cycle and is uniquely qualified for all steps of the process, giving you comprehensive and seamless guidance.
